Experience

Software Developer and Consultant

Lehi, UT

Eide Bailly LLP

Jan 2019 – Present

- Built full-stack custom applications using React.js, Node.js, C#, .NET, and Azure to support client business needs.
- Developed tools and functionality on client Salesforce instances using Apex, SOQL, Lightning Web Components, and Visualforce pages to streamline CRM processes.
- Ensured the use of best coding practices including unit testing, test driven development, and the implementation of design patterns.

Enterprise Services Project Manager

Orem, UT

Mozenda

Mar 2017 – Jan 2019

- Designed scripts to extract data from different sources and perform automation tasks for our enterprise level clients using JavaScript, Regular Expressions, XPath, and web scraping software.
- Oversaw the completion of contracted projects across all phases of development, generating over 25% of the company's annual revenue.
- Developed an onboard training process to help new employees learn how to use the company's software and prepare to work with clients.

Web Developer - Intern

Provo, UT

PhraseWorthy LLC

Dec 2016 – Apr 2017

- Developed and maintained front-end functionality using Java, JavaScript, HTML, PHP, and CSS to optimize user experience, particularly in the mobile environment.
- Set goals and distributed work within a team of five developers to implement website improvements.
- Improved efficiency in website functions including tutorials, cross-browser compatibility, and responsive CSS.

Skills & Achievements

- Proficient in JavaScript, React.js, C#, Java, SQL, HTML, CSS, jQuery, Regular Expressions, ASP.NET, Visual Basic, Tableau, Apex, Web Components, Salesforce.com, Node.js, Python, MySQL, PHP, Git, Linux/Unix, and Power BI.
- Conducted multiple side projects as a freelance software developer. See portfolio at www.tbakow.com
- Regional BI/Analytics Case Competition/Hackathon 2nd place finish.
- Fluent in French and Tahitian.
- Hobbies include golfing, basketball, traveling, guitar, and hiking.
